

## *'Replacing your old stable roof with Onduvilla Tile Strips'*

*After more than 30 successful years of Onduline Classic sheets on their stable roof, the owners decided to renew and upgrade their existing roof covering to Onduvilla Tile strips.*

*The work consisted of removing the existing sheeting and fixing 18mm OSB board to the timber structure.*

*A key improvement was laying Ondutiss breather membrane onto the boarding.*

*Finally, Shaded Red Onduvilla tiles were fixed directly over the existing roof to complete the work that will provide many more years to the life*
