

Onduline Roofing Sheets

Guarantee and Maintenance Schedule.

Thank you for selecting Onduline Roofing sheets for your building. We value your custom and want to ensure that you get the maximum benefit from your Onduline roof covering. Please take a few moments to familiarise yourself with the terms and conditions of the product guarantee, and a few simple maintenance requirements for Onduline roofing.

Leaf Debris:

Do not allow leaf debris to build up on the surface of the corrugated roofing sheets. Left unattended the debris will form leaf mould which by holding moisture in the corrugation bases will soften the Onduline sheet and ultimately reduce the effective life of the product.

Tree and shrub branches:

Check that overhanging branches are not in contact with the surface of the sheets, as wind generated movement can result in mechanical damage to the surface of the Onduline sheets.

Gutters:

Clean all gutters, down-pipes and gullies regularly. If water collection systems are used, filter and circulate water in accordance with the instructions of the system manufacturer. Note: Whilst rainwater run off from Onduline roofs is non-hazardous, we do not recommend its use for human consumption due to the inherent risk of air bourn pollutants being introduced into the water collection system.

Ventilation:

Always ensure high and low level ventilation channels are unrestricted.

Product Support:

If you require further information on our products or services we will be pleased to assist. Just call our sales office or access our web site at: www.onduline.net

Product Guarantee

Terms & Conditions:

Onduline roofing sheets are guaranteed to remain weatherproof for fifteen years under normal usage, when fixed and maintained in strict accordance with the fixing instructions. The guarantee is non transferable and does not cover the aesthetic quality of the material.

The guarantee after five years service is limited to the pro-rata replacement value of the Onduline materials set against the service life measured in annual increments and does not extend to labour, related construction or third party costs.

Product Enquiry:

If you have a product enquiry or complaint regarding Onduline sheets please fill out a technical enquiry form with supporting photographs, preferably by e-mail upon receipt this information will be assessed by our technical department and actioned as required.

This procedure does not effect your statutory rights.

Health and Safety:

Working on roofs can be a hazardous operation. All work must be carried out with due regard to health and safety
